

ST. PETERSBURG
ANGLISKI PROSPEKT, 26.

$\frac{12}{25}$ September 812.

My dear Nathleen;

I thank You ever so much and the
Frehlings too for the kindness to inquire
about the Summer Schools for boys. —

My grand sons are 16 and 12 years; their
mother would then send from June

1st till August 15th. — She would like

a Sea side place and, of course, a

first rate Institution. —

The Photo I shall give You for the
Frehlings, with pleasure and with
a dedication, on Your way here;
You would take it with You?
How disagreeable with You please;

240. I gave your new address to ~~John~~ Taper
in Helsingfors who asked for it, I
suppose, for another engagement.

I am in a very bad humour; since
Loschewitz I had not one day without
rain; in Berlin it was impossible
to go out and so it is here now. —

The pupils are yet on their way; as
for Rosenzweig I have much trouble
for his permit and I am not sure
if I shall get it. — For the cigars

I write to Rouay who will send them
to you. — Will you send him the money
on his address: 28 Abbey Road, St.

Isabel Wood. — And now, good bye
my dear child. — Hoping to see you
very soon I send you my best and
heartiest greetings and for Mother too. —
